BUSINESS CONTINUITY POLICY

Getronics through its Business Continuity Management System (BCMS) is committed to minimising the risk of business interruption through implementing processes, systems and controls, as appropriate, and maintaining viable incident response, business continuity plans and information security continuity to respond to potential business disruptions. The Policy will enforce the resumption of the critical business processes within acceptable time frames and at an agreed minimum service level (where commercially viable).

The development of this capability reflects Getronics' commitment to people's safety, customer service continuity, supply chain continuity and relationships, shareholders' interests, protection of assets and infrastructure and safeguarding Getronics reputation.
