
Statement on Modern Day Slavery and People Trafficking
Financial Year ending 31/12/2024

1 INTRODUCTION

1.1 Purpose

Getronics Group (as defined below) has a zero tolerance stance on slavery and human trafficking. This document defines the policy of all affiliates and subsidiaries of Getronics Group B.V. (“**Getronics Group**”) on Modern Day Slavery and People Trafficking and the actions that will be taken by Getronics Group in 2023 to reduce the risk of forced labour and human trafficking taking place in the Getronics Group organisation and the Getronics Group Supply chain. Furthermore, we intend to use this statement to provide stockholders, customers, and suppliers with the ability to make informed choices about the companies they support.

1.2 What and why this is required

The statement must set out what steps Getronics Group has taken during the financial year to ensure that modern slavery is not occurring in Getronics Group or its supply chain. When the Act refers to ensuring that slavery and human trafficking is not taking part in any part of an organisations supply chain, this does not mean that the organisation in question must guarantee that the entire supply chain is slavery free. Instead, it means an organisation must set out the steps it has taken in relation to any part of the supply chain (that is, it should capture all the actions it has taken).

A statement may include information about:

- a. the organisation’s structure, its business and its supply chains;
- b. its policies in relation to slavery and human trafficking;
- c. its due diligence processes in relation to slavery and human trafficking in its organisation and supply chains;
- d. the parts of its organisation and supply chains where there is a risk of slavery and human trafficking taking place, and the steps it has taken to assess and manage that risk;
- e. its effectiveness in ensuring that slavery and human trafficking is not taking place in its organisation or supply chains, measured against such performance indicators as it considers appropriate;
- f. the training and capacity building about slavery and human trafficking available to its staff.

It is not compulsory for an organisation to include these points in its statement, (except in so far as these reflect the actual steps the organisation has taken during the financial year to ensure that slavery and human trafficking is not taking place in their supply chains or own business).
